Notes:

[1] Entitlement to the software is not included with the database type if the Support Level is blank. The PostgreSQL database type does not include entitlements to any proprietary software and has been intentionally left blank.

[2] Only applicable with clusters powered by EDB Postgres Distributed

Guidance & Advice: EDB will provide insight and guidance for the product as it is understood per EDB's knowledge of the documented behavior and functionality of the software.

Troubleshooting: EDB will provide insight, guidance and troubleshooting for the software on approved OS platforms and versions designated at https://www.enterprisedb.com/product-compatibility

Break/Fix: EDB will provide insight, guidance, troubleshooting, and where possible, a technical workaround as it pertains to the software if necessary, as it relates to functionality and behavior within the official software documentation, on approved OS platforms and versions as designated at https://www.enterprisedb.com/product-compatibility A workaround may consist of technical steps, a software patch or build, however EDB provides no guarantee that any code changes will persist or be maintained in the main open source project.
