Notes:

- [1] Etcd is the only Distributed Consensus Store (DCS) supported by EDB and troubleshooting will include Etcd and HAProxy when used as part of the Patroni implementati
- [2] Includes all the extensions and loadable modules found at <https://www.postgresql.org/docs/current/contrib.html> based on software version
- [3] pgsnmpd and Slony-I is no longer supported by EDB beginning with PostgreSQL v14.x

Definitions:

Guidance & Advice: EDB will provide insight and guidance for the product as it is understood per EDB's knowledge of the documented behavior and functionality of the software.

EDB Supported Open Source Software

Updated: 5/16/2024

EDB Supported Open Source Software	Premium Support?	EDB Subscription Plan			Approved Download Locations		
		Community 360	Standard	Enterprise	PGDG	EDB	Other

Troubleshooting: EDB will provide insight, guidance and troubleshooting for the software on approved OS platforms and versions designated at <https://www.enterprisedb.com/product-compatibility>

Break/Fix: EDB will provide insight, guidance, troubleshooting, and where possible, a technical workaround as it pertains to the software if necessary, as it relates to functionality and behavior within the official software documentation, on approved OS platforms and versions as designated at <https://www.enterprisedb.com/product-compatibility>. A workaround may consist of technical steps, a software patch or build, however EDB provides no guarantee that any code changes will persist or be maintained in the main open source project.
